- **Spectrum** is a multi-award winning, parent-led children's charity. They provide events, sessions and support for families of children with autism, additional needs, learning difficulties, and disabilities. As an organisation, they are family-focused, advocates of collaboration, passionate about increasing inclusion and reducing isolation whilst supporting Special Education Needs & Disabilities (SEND). Any child with additional needs is welcome, even if you have just started on the diagnosis journey with their GP/Education setting and don't have a formal diagnosis in place. As a registered Spectrum member, you can access our Child & Family Support from the comfort of your home. Spectrum offer Max Cards which offer discounts on leisure activities and holidays for families. Membership is free. - Fun workbook for kids – [Detectives Elena and Ruben Learn All About ADHD'](#)
- [A Teenager's Guide to ADHD](#)

### **Talking to schools about neurodiversity**

Learning About Neurodiversity in Schools (LEANS) is a free curriculum for mainstream primary schools to introduce children aged 8-11 years to the concept of neurodiversity. It has been developed by a neurodiverse team of experienced researchers and educators, led by the Salvesen Mindroom Research Centre at the University of Edinburgh,

LEANS aims to create a better-informed, more accepting school community, which makes school a more positive experience for everyone. The resource has been designed to increase knowledge and acceptance among all pupils, which can have positive effects on wellbeing, mental health and reducing stigma and is guided by three key goals.
