

SEND Improvement Board - Front Sheet

| | |
|--|--|
| Report Title | SEND Data Dashboard |
| Date of Meeting | 29 th January 2026 |
| Prepared By | Martin Hole, Max Preston and Harriet Wakeling |
| Department/Service | iHub |
| Contact Details | Martin.hole@suffolk.gov.uk |
| Report Purpose | To provide an update to SEND Improvement Board members on the development of the SEND Data Dashboard. |
| What is the impact of this report/ work for Children, Young People with SEND and their families | A SEND data scorecard gives the Local Area Partnership a single, trusted, and multi-agency lens on performance and outcomes—tightening governance, focusing operational effort, evidencing impact, and accelerating improvement for children and families. Looking at the intelligence behind data will turn dashboards into decisions—tightening governance, targeting resources, coordinating partners, and support to evidence the real-world difference for children and families. |
